

## Why Choose POLYTECH Implants

For over 25 years, POLYTECH Health & Aesthetics has specialised in the manufacturing of breast implants. Working closely with surgeons and patients, we have developed our implants so that we can guarantee not only a natural look and a long-term dimensional stability, but most importantly safety:

POLYTECH implants are 100% handmade in Germany according to the highest quality standards.

The medical grade silicone utilized is specifically approved for long-term implantation.

After each step of production every single implant is checked by hand.

The POLYTECH range offer over 1,500 different implants for aesthetic augmentation or breast reconstruction.

For more information about POLYTECH implants speak to your surgeon.

PATIENT PROMISE  
Revision Surgery Insurance

Exclusive to Polytech Implants from QMedical

## What is covered:

### Revision Surgery Costs

The costs of providing revision surgery up to £1500 per implant.

### Capsular Contracture

Where the breast implant needs to be removed or replaced.

This is a response of the immune system to foreign materials in the human body including breast implants.

The insurers will only be liable to pay the benefit if the contracture is diagnosed as Baker Grade III or IV.

Revision surgery of a known Capsular Contracture must be performed using a PolyTech Micropolyurethane coated implant.

### Implant

Rotation, dislocation and rupture.

### Haematoma

Requiring treatment to drain blood.

This is a painful lump made up of blood which may collect around the implant.

### MRSA

Methicillin-Resistant Staphylococcus Aureus ("MRSA") infection which needs to be treated with antibiotics.

This is an infection specifically caused by a strain of bacteria that is resistant to the antibiotic Methicillin.

### Post-Operative Infection

Requiring surgical intervention.

This is an infection after a surgical procedure which needs an operation to correct it.

### Seroma

Requiring treatment to drain fluid.

This is a pocket of clear serous fluid that can develop in the body after surgery.

***Free for 2 years on any PolyTech Implant from Q Medical***

**POLICY UNDERWRITTEN BY LLOYDS OF LONDON**

## What is not covered:

### The warranty will not cover any claim that is made:

For any remedial or corrective treatment which occurs or is required within the first 14 days after the procedure.

Which is purely cosmetic i.e required due to dissatisfaction with the final aesthetic appearance.

For loss or alteration of sensitivity of any part of the nipple or breast.

Which is due to a procedure not carried out with the Insured implant that has a manufacturing reference number.

Which is for remedial or corrective treatment following surgery carried out for any post-operative infection caused by body piercing.

If, at the time of surgery, the patient was not suitable for surgery in accordance with recognised, published contra-indications to surgery.

### For expenses, charges or costs:

- a. which are fees for completion of a claim form or other administration related charges;
- b. which are not legally payable by the patient;
- c. which exceed the maximum benefits under this Insurance;
- d. incurred in travel to and from the hospital/clinic;
- e. incurred by broken appointments;
- f. for materials and procedures which do not meet the accepted medical standards, or are experimental or unproven;
- g. for prescribed drugs.

### In respect of treatment which:

- a. is required for un-associated medical treatment;
- b. constitutes routine maintenance.

### Regarding a medical condition which:

- a. arises from any sports injuries;
- b. relates to the use of tissue-expanding prostheses or any other device where the volume of the implant can be altered post-operatively.
