

SurgiMend[®] e

Collagen Matrix for Hernia Repair

Specifically designed for use in abdominal hernia repair

- elliptical, optimized design
- easy to use
- economical

SurgiMend-e is elliptical to mimic native geometry and features fenestrations* to facilitate fluid drainage. Available in three and four millimeter thicknesses, SurgiMend-e provides superior strength and reinforcement.

*Non-fenestrated versions of the product are also available.

10 cm x 25 cm x 3 mm
(Shown actual size)
